

Master-Tube PUR

Polyurethane hoses: for use in sensitive environments, including for low-pressure pneumatic applications, as water-cooling hoses in cooling circuits, as feed and transport hoses for solid and liquid media, and as hoses suitable for use in drag chains

spiral-free metal-free flexible

Product Details

Construction / Material

- Execution of the wall: made of highly abrasion-resistant material

Properties

- Chemical Properties: good resistance to oil, good UV resistance, plasticiser-free, good resistance to fats
- Mechanical Properties: kink-resistant, elastic behaviour under mechanical stress
- Flexibility: flexible
- Physical Properties: flexible at low temperatures, good damping behaviour

Operating Temperature

- Temperature Range: -40to 85°C

Application Areas

- Areas of application: Plant & Mechanical Engineering, Industry

Customizing Options

- optional item modification (on request): other colours, printable, rolls, available in antistatic design, manufactured from hydrolysis- and microbe-resistant special PUR materials

Disposal instructions

After use, the product must be disposed of in accordance with the legal regulations applicable in the user's region (in Germany in accordance with the applicable Waste Catalogue Ordinance (AVV)).
