

Master-Tube PUR F

PU media tubing in various hardnesses, for industrial, food and pharmaceutical applications, food-grade, plasticiser-free, microbe-resistant and hydrolysis-resistant, abrasion-resistant, UV-resistant

food approved | spiral-free | metal-free

Product Details

Construction / Material

- Type of construction: axially extruded tubing without seams or welds
- Execution of the wall: made of highly abrasion-resistant material
- Specifications of the wall: approved for direct food contact in accordance with the German Consumer Goods Ordinance (Bedarfsgegenständeverordnung) in the version of 15.02.2016, material complies with food regulations FDA 21 CFR § 177.2600 and 21 CFR § 177.1680

Properties

- Chemical Properties: hydrolysis resistant, microbe-resistant, plasticiser-free
- Mechanical Properties: kink-resistant, elastic behaviour under mechanical stress
- Physical Properties: flexible at low temperatures

Operating Temperature

- Temperature Range: -40to 85°C

Application Areas

- Areas of application: Plant & Mechanical Engineering, Industry, Food & Pharma

Customizing Options

- optional item modification (on request): printable, rolls

Disposal instructions

After use, the product must be disposed of in accordance with the legal regulations applicable in the user's region (in Germany in accordance with the applicable Waste Catalogue Ordinance (AVV)).
